

# LOCKOUT-PRO™ Ver. 3.1 Patch Upgrade

---

The LOCKOUT-PRO™ patch upgrades your LOCKOUT-PRO™ software from any version 3.0 through version 3.03 to version 3.1.1.

The following instructions describe how to install the upgrade patch to existing Enterprise and Desktop versions.

## Enterprise Server Upgrade Instructions

---

**Note:** You **must** install the *Enterprise Server* patch before upgrading the *Enterprise Client* patch.

---

1. Close all open Windows applications.
2. From the Brady ID website, download the install patch (*Lockout PRO 3.1.2 Patch.exe*) to your desktop.

---

**Note:** .NET 2.0 must be installed on **both** the Server and the Client desktop before this upgrade can be installed. Go to the Microsoft website to download .NET 2.0.

---

3. Double-click the install patch **Lockout PRO 3.1.2 Patch.exe**.
4. At the prompt, click **OK**.

---

**Note:** At this point, the upgrade checks for your current software version. This may take some time.

---

5. When prompted, choose your language from the drop-down list, then click **OK**.
6. Click **Install**.

---

**Note:** At this point, the software uninstalls the previous version. This is necessary before the patch can be installed.

---

7. When prompted, choose your language again, then click **OK**.
8. Click **Next**, then **Install**.
9. When the upgrade is done, click **Finish**.

---

**Note:** At this point, the upgrade to version 3.1 is complete.

---

10. When prompted, click **Start** to proceed with the patch.
11. When the upgrade is complete, click **Finish**.
12. Restart your server.

## Enterprise Client Upgrade Instructions

---

**Note:** .NET 2.0 must be installed on **both** the Server and the Client desktop before this upgrade can be installed. You can download .NET 2.0 from your server (**[serverIPaddress]/lopclientsetup**) or the Microsoft website.

---

1. Go to your server url (**[serverIPaddress]/lopclientsetup**).
2. From your server location, locate the **Upgrade to Lockout PRO 3.1** file.
3. To download the upgrade to your desktop, click **Download**.
4. Click **Save to Desktop**.
5. Double-click **Lockout PRO Client Patch**.
6. Click **Run**.
7. Click **Start**.
8. Click **Finish**.
9. Restart your computer.

## Desktop Upgrade Instructions

---

**Note:** .NET 2.0 must be installed on your desktop before this upgrade can be installed. Go to the Microsoft website to download .NET 2.0.

---

1. From the Brady ID website, download the install patch (*Lockout PRO 3.1.1 Desktop Patch.exe*) to your desktop.
2. Download the patch to your desktop, click **Download**.
3. Click **Save to Desktop**.
4. Double-click **Lockout PRO 3.1.1 Desktop Patch.exe**.
5. Click **Start**.
6. When the upgrade is done, click **Finish**.
7. Restart your computer.
